

Dear JC2 students of Math Academy,

A Levels Topical Revision Schedule 2022

In order to get you prepared for the A level examinations, I have attached our revision schedule below. It is strongly encouraged that you come prepared for the revision, so that we can clarify any doubts that you might have.

During the revision class, we will be covering a summary of the key formulae as well as commonly asked questions for the exams. The purpose of this revision is to revise through all the necessary concepts and techniques, and be ready for the A levels examination.

As you can observe from the schedule, we just have enough time to complete our weekly topical revision. Ensure that you fully master the chapter every week, as we will not have time to revisit any chapters. Work very hard in this last stretch!

Week Start	Week End	Chapter
23-May	29-May	Permutation and Combination
30-May	5-Jun	Complex Numbers 1
6-Jun	12-Jun	Complex Numbers 2
13-Jun	19-Jun	Vectors 1
20-Jun	26-Jun	Vectors 2
27-Jun	3-Jul	Integration
4-Jul	10-Jul	Correlation And Regression 1
11-Jul	17-Jul	Correlation And Regression 2
18-Jul	24-Jul	Integration Applications
25-Jul	31-Jul	Differentiation
1-Aug	7-Aug	Functions
8-Aug	14-Aug	Graphing Techniques
15-Aug	21-Aug	Graphing Transformations
22-Aug	28-Aug	Differential Equation
29-Aug	4-Sep	Maclaurin's Series
5-Sep	11-Sep	APGP
12-Sep	18-Sep	Summation
19-Sep	25-Sep	Inequalities
26-Sep	2-Oct	Probability
3-Oct	9-Oct	Discrete Random Variable
10-Oct	16-Oct	Binomial Distribution
17-Oct	23-Oct	Normal Distribution
24-Oct	30-Oct	Hypothesis Testing
31-Oct	6-Nov	Miscellaneous / Mock Paper 1 and 2

Many thanks,
Ian Ang,
JC Teacher in Charge
